Creating a New Limerick
Creating a New Limerick

Tuesdays at 7.30

Far reaching changes are happening in Limerick with the ongoing work of Regeneration and the planned boundary changes for the city and county. These four evening sessions aim to contribute to the building of a Limerick in which all who live here feel welcome and have their needs and wishes taken into account in the way the city is governed, in the way services are provided and money is spent. This year those who come regularly to these Lenten talks will be joined by people from all parts of the city and beyond. They will have a chance to meet and get to know each other as they share their concerns for the future of Limerick.

Tuesday 28 Feb. **Can we in Limerick learn from our History?**

Liam Irwin was Head of the Department of History at Mary Immaculate College for 30 years

Tuesday 6 March **The Neglected Challenges of Local Government**

Peadar Kirby is Professor of International Politics and Public Policy at University of Limerick

Tuesday 13 **The Importance of Social Support for Family & Friends**

Eileen Humphreys is a Research Fellow in the University of Limerick

Tuesday 20 March **The Way Forward**

Gary O'Brien is Associate Vice President, Mary Immaculate College. He will gather together what the speakers and participants have said in the previous evenings and help those present to plan future steps.
